

Yippee Size Calculator (English manual)

Minhyo Seo, Eunhee Cho, Yeongeun Yun

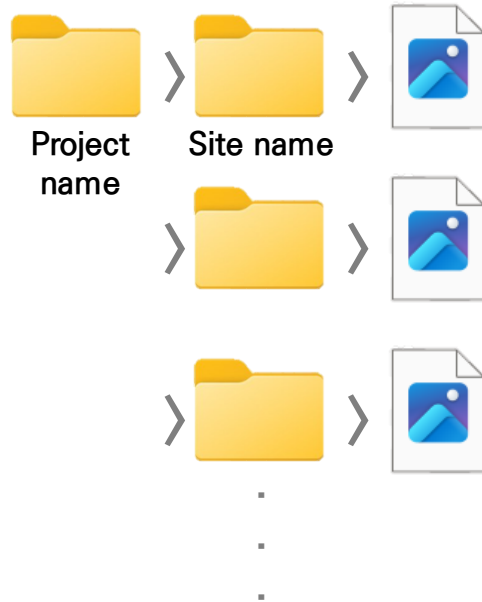

1. How to Organize Image Folders

❖ You must create two folders:

1) test_image_folder

2) analysis_image_folder

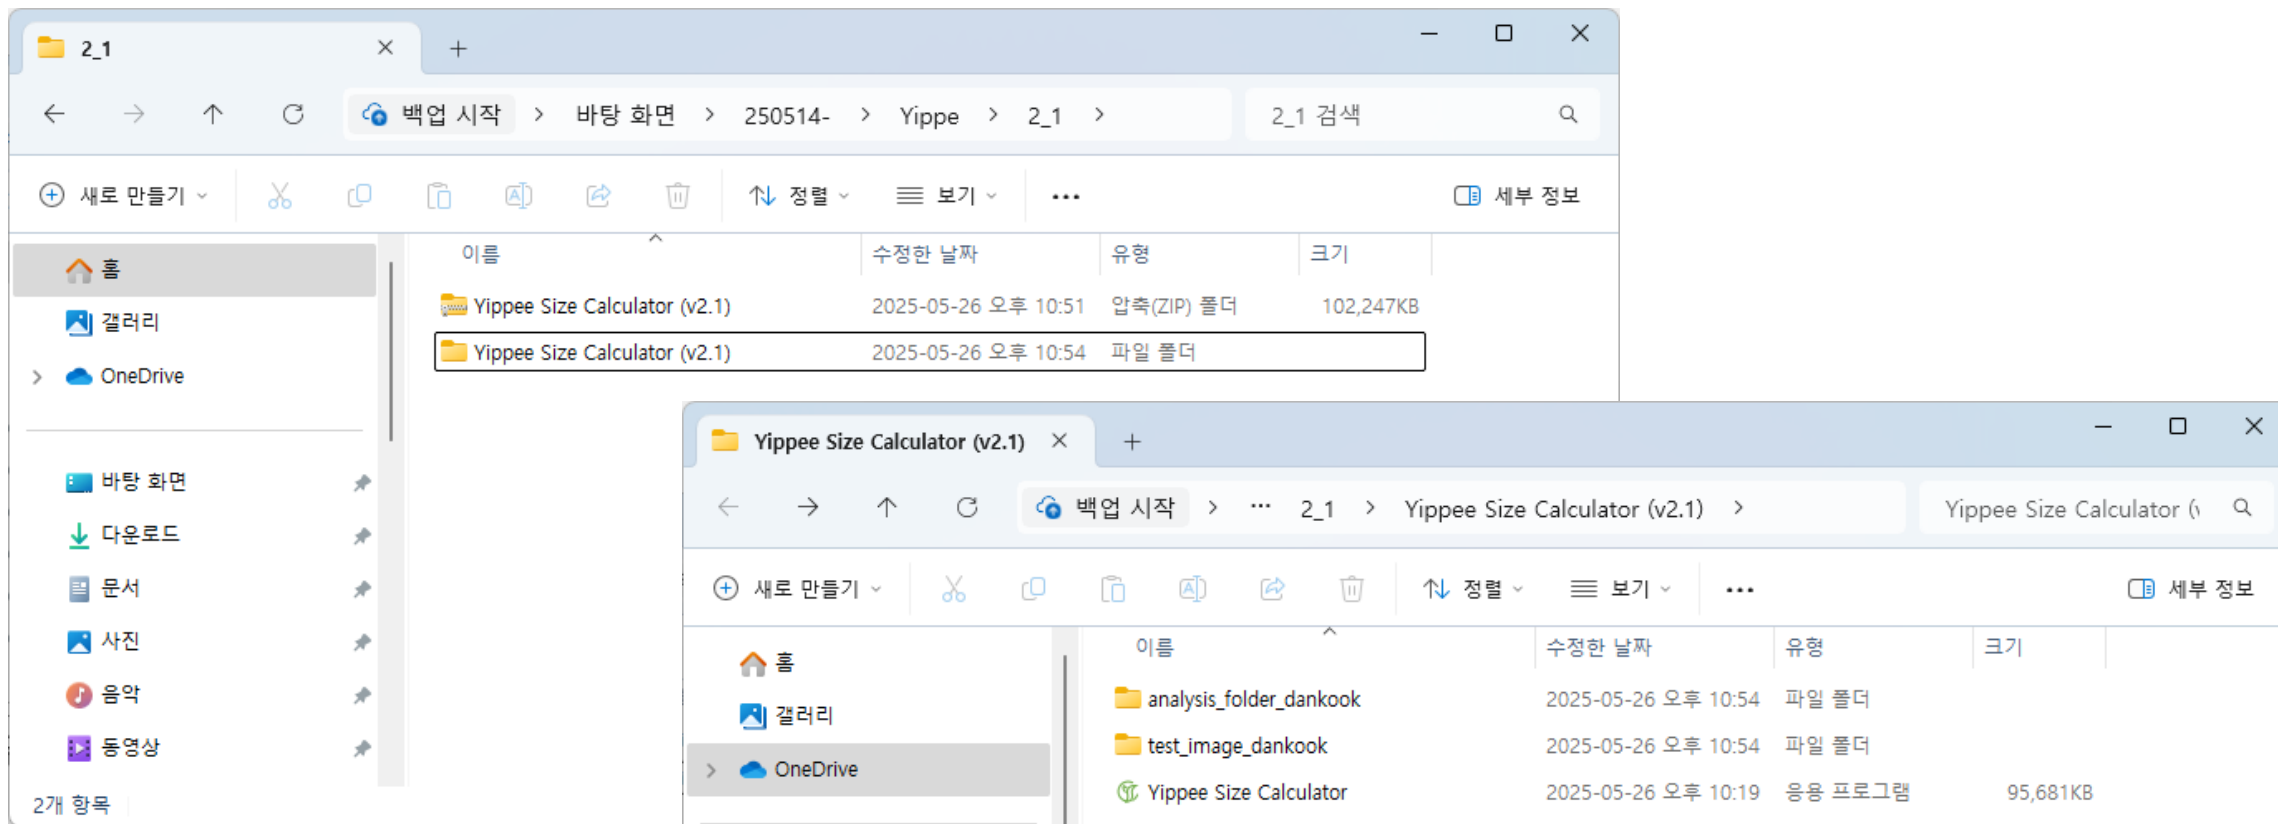

❖ Prepare the folder structure exactly as shown in the left:

- ✓ test_image_folder: contains images used for setting
- ✓ analysis_image_folder: contains images to be analyzed

❖ Notes:

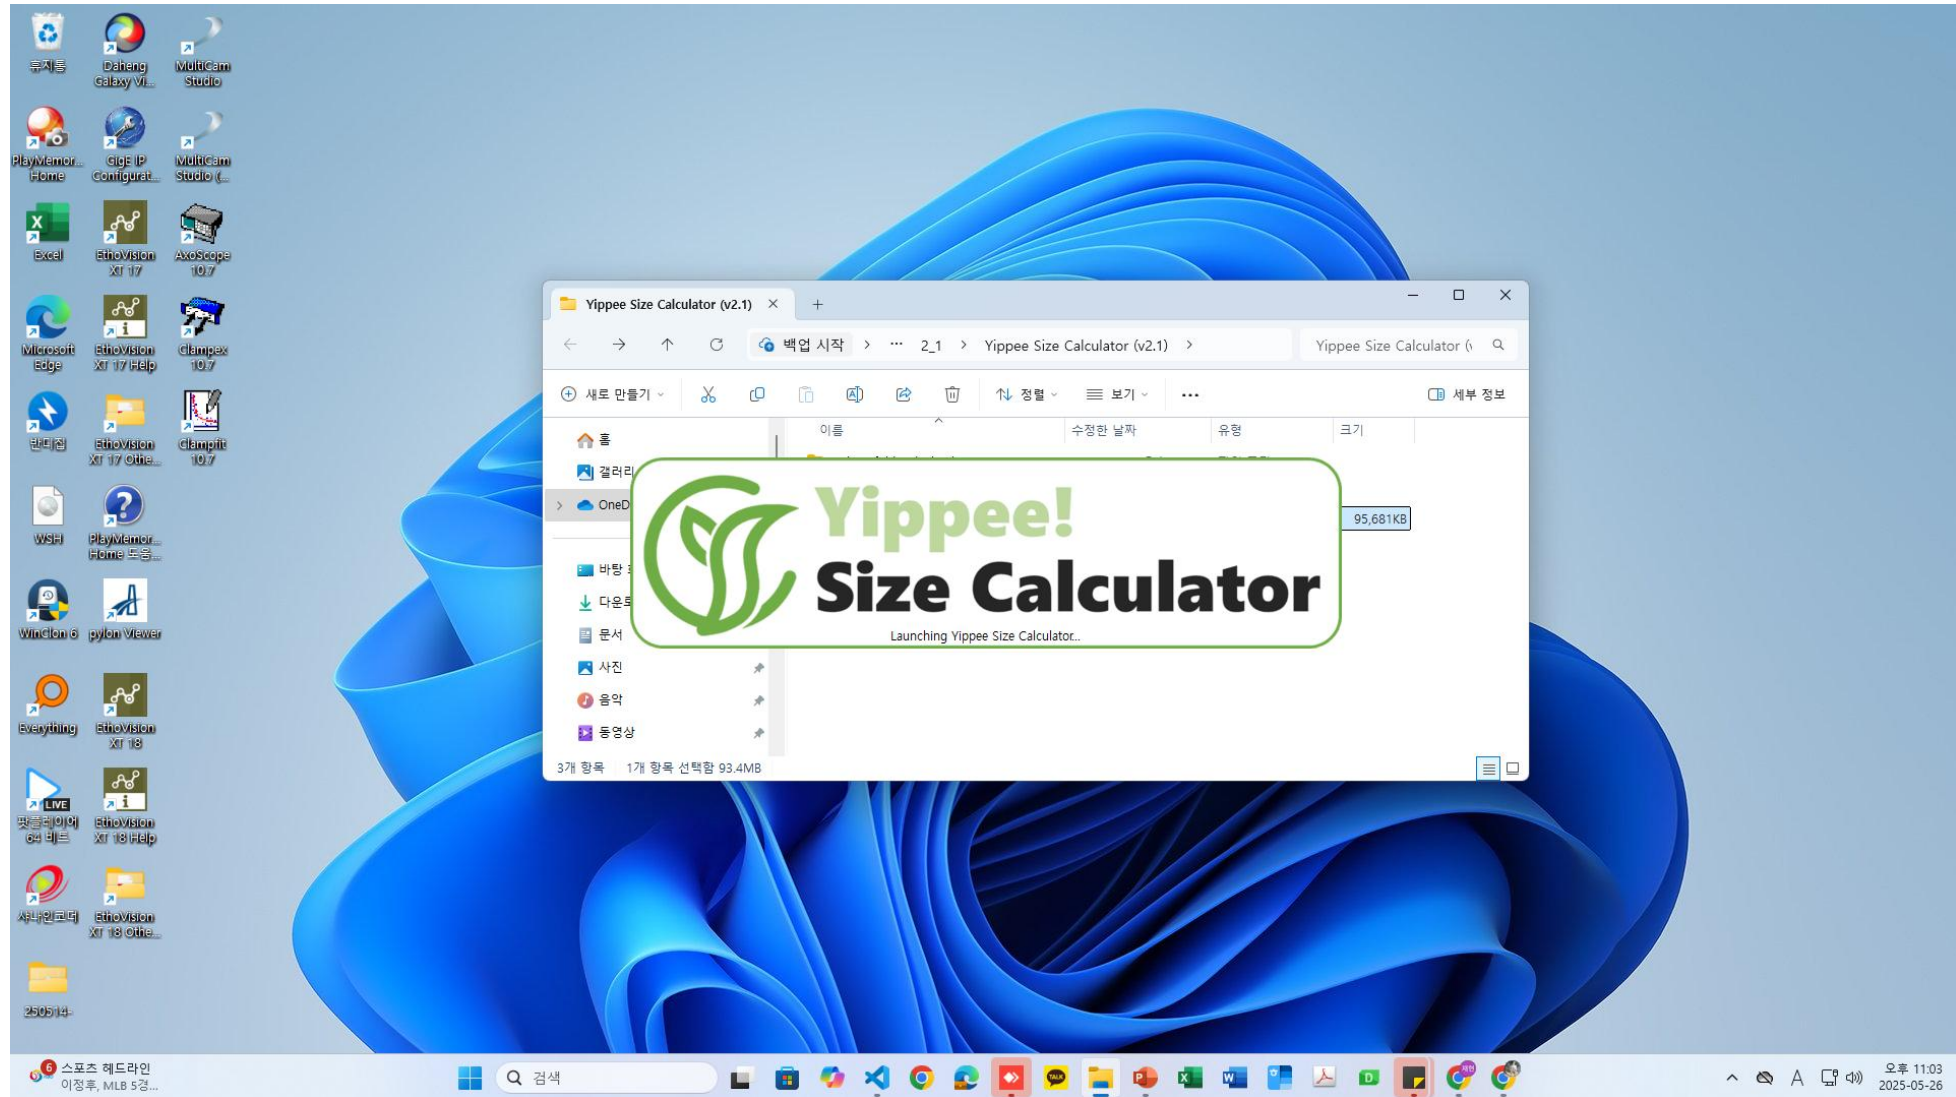

- ✓ Folder and image names may be in Korean or English.
- ✓ Images must be in '.jpg' or '.jpeg' or '.tif' or '.tiff' or '.png' format.
- ✓ If folders or images are located outside the designated structure, error messages will appear.

2. Downloading the exe file

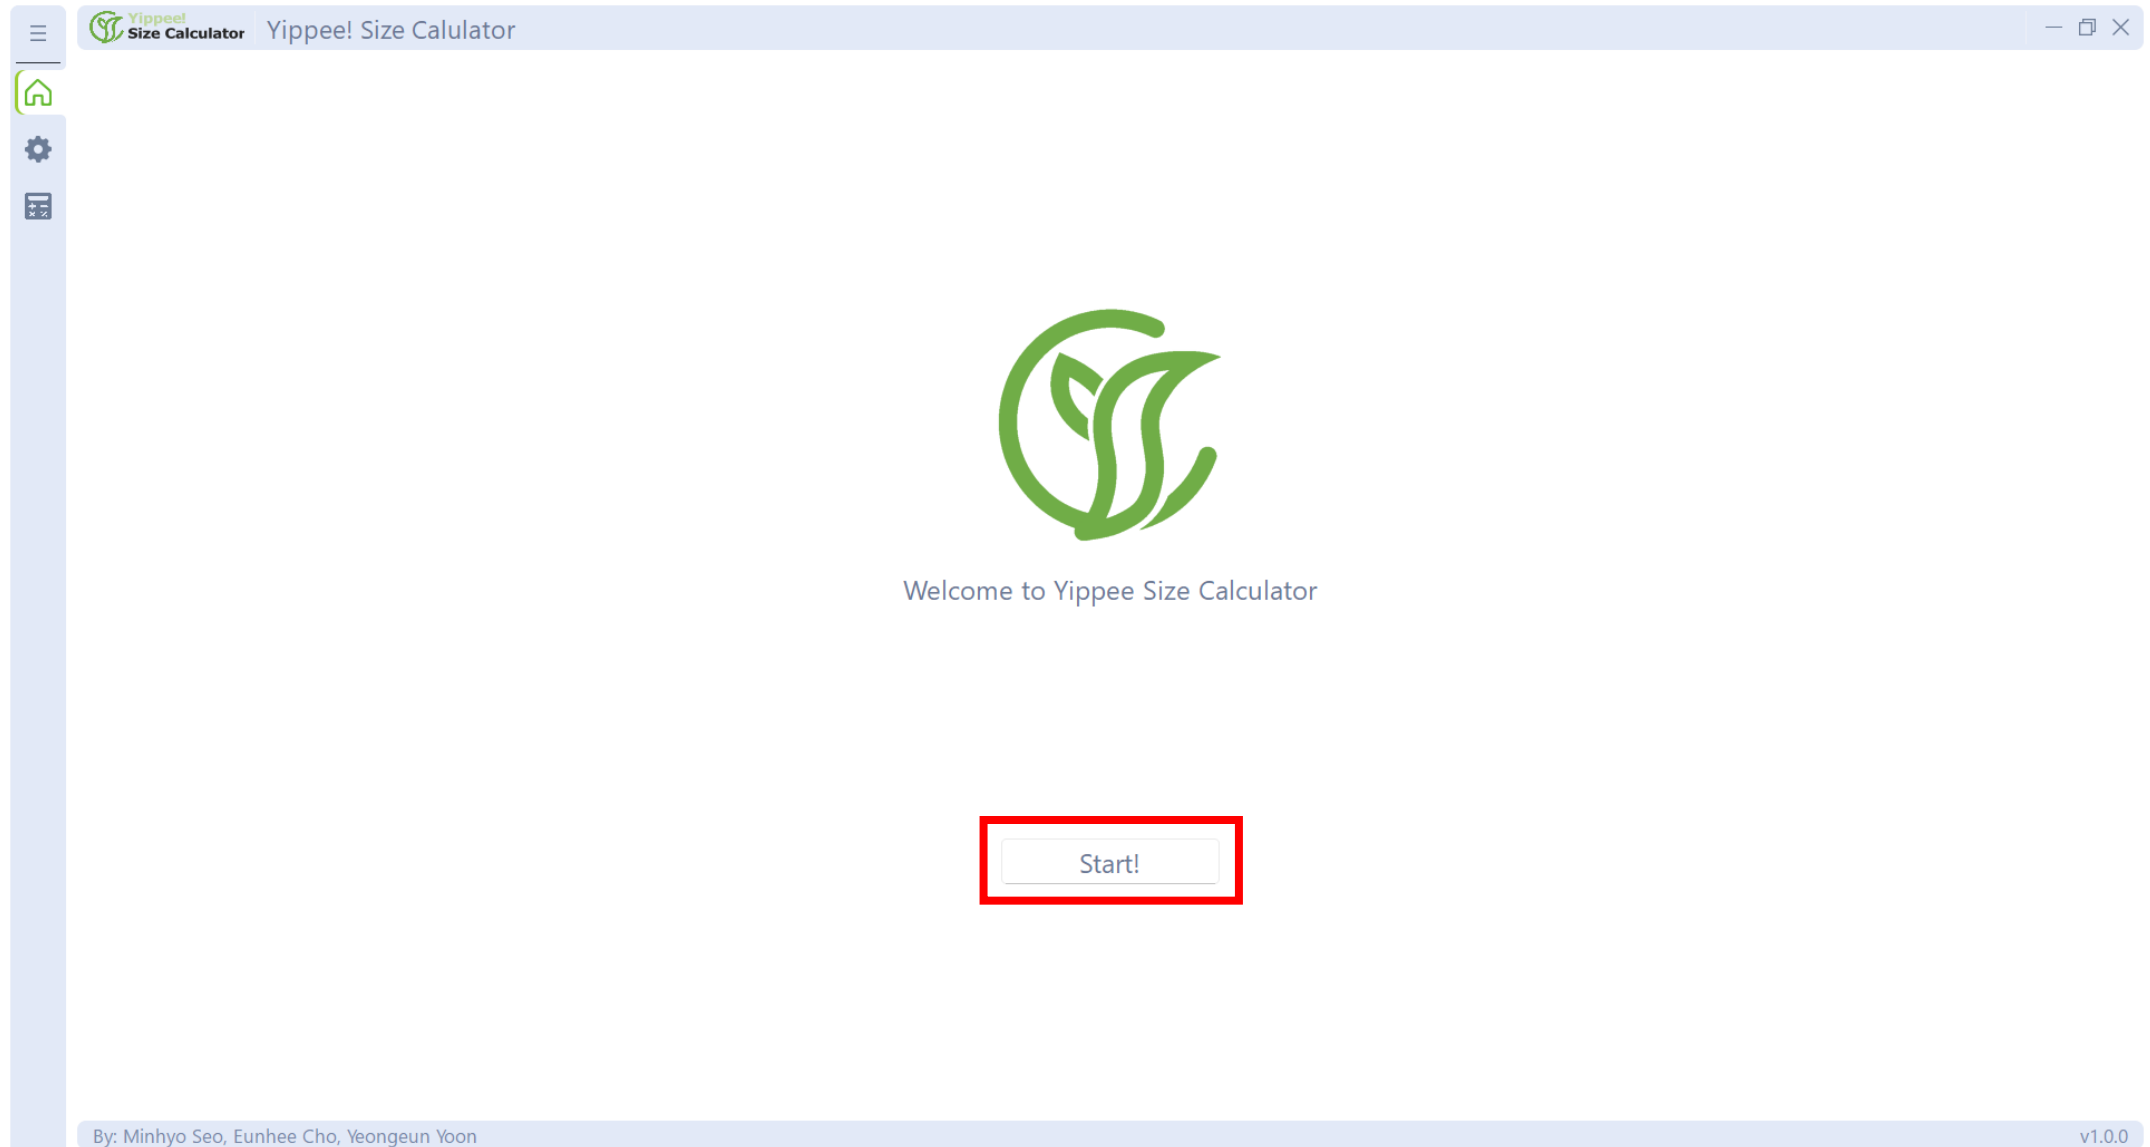

- ❖ Download the file “Yippee Size Calculator (v2.1).zip” to your preferred location and extract it.
- ✓ The extraction location does not matter.
- ✓ The zip file contains the executable “Yippee Size Calculator.exe” and example images for analysis.

3. Opening the exe file (Double-click)

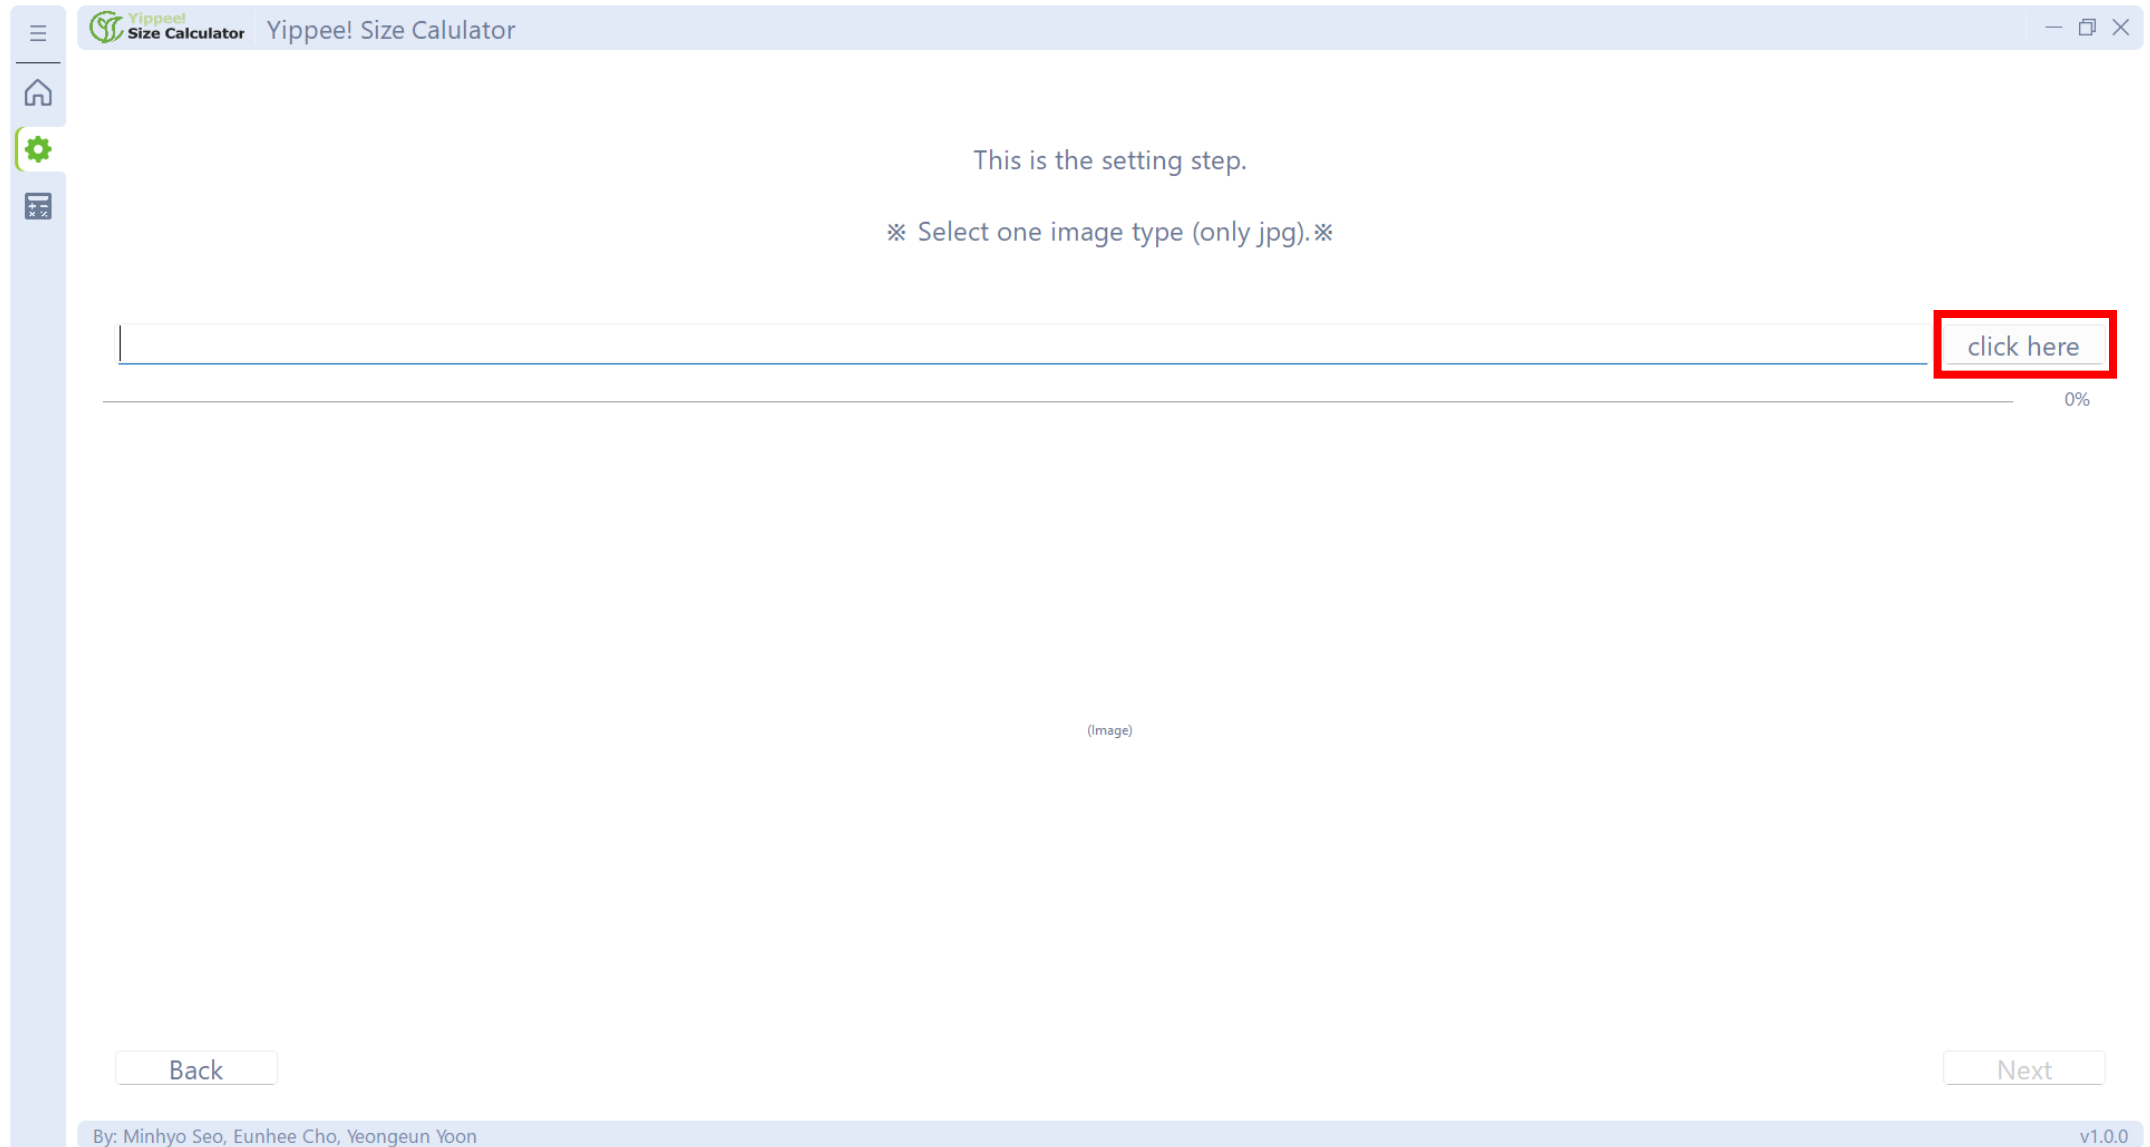

- ✓ Double-click to open the program.
- ✓ If clicked multiple times, multiple windows may open. Please wait.

4. Start the program!

- ✓ Click **Start!** on the main screen to begin.

5. Setting step

The screenshot shows the 'Yippee! Size Calculator' application window. The title bar reads 'Yippee! Size Calculator'. On the left is a vertical sidebar with icons for a menu, home, settings (highlighted with a green gear), and a calculator. The main area contains the text 'This is the setting step.' followed by '※ Select one image type (only jpg).※'. Below this is a long, empty text input field. To the right of the input field is a button labeled 'click here', which is highlighted with a red rectangular border. At the bottom of the main area, there is a progress bar that is currently at 0%. Below the progress bar is a large, empty rectangular area with the text '(Image)' centered below it. At the bottom of the window, there are two buttons: 'Back' on the left and 'Next' on the right. The footer of the window contains the text 'By: Minhyo Seo, Eunhee Cho, Yeongeun Yoon' on the left and 'v1.0.0' on the right.

- ✓ Open the folder and select an image for the setting step.

v1.0.0

- ✓ Check that the displayed image matches the one you selected.
- ✓ If correct, click **OK**.

- ✓ When the progress bar reaches 100%, a notification window appears.

✓ Click **Next** to proceed.

- ✓ You will see three images with different red-edge outlines.
- ✓ Select the image in which the edge of the leaf most closely matches the red line. → Click **Next**.

v1.0.0

✓ Check if the results look correct, then click **Next**. (If something looks wrong, go **Back** and restart.)

- ✓ Choose one or more file types to save from the result formats shown above.
- ✓ At least one must be selected(The top option is recommended). → Click **Next** to continue.

6. Analysis step

The screenshot shows the 'Yippee! Size Calculator' application window. The title bar includes the logo and the text 'Yippee! Size Calculator'. On the left, there is a vertical sidebar with icons for a menu, home, settings, and the current analysis step (highlighted in green). The main area contains the text 'This is the analysis step.' followed by '※ Select experiment folder. ※'. Below this is a large text input field. To the right of the input field is a button labeled 'click here', which is highlighted with a red rectangle. At the bottom of the main area, there is a progress bar that is currently at 0%. At the bottom of the window, there are 'Back' and 'Next' buttons. The footer contains the text 'By: Minhyo Seo, Eunhee Cho, Yeongeun Yoon' and the version 'v1.0.0'.

v1.0.0

- ✓ Select the folder to analyze.
- ✓ Select the folder, not an image file (The required structure is Folder > Folder > Images, as explained earlier).

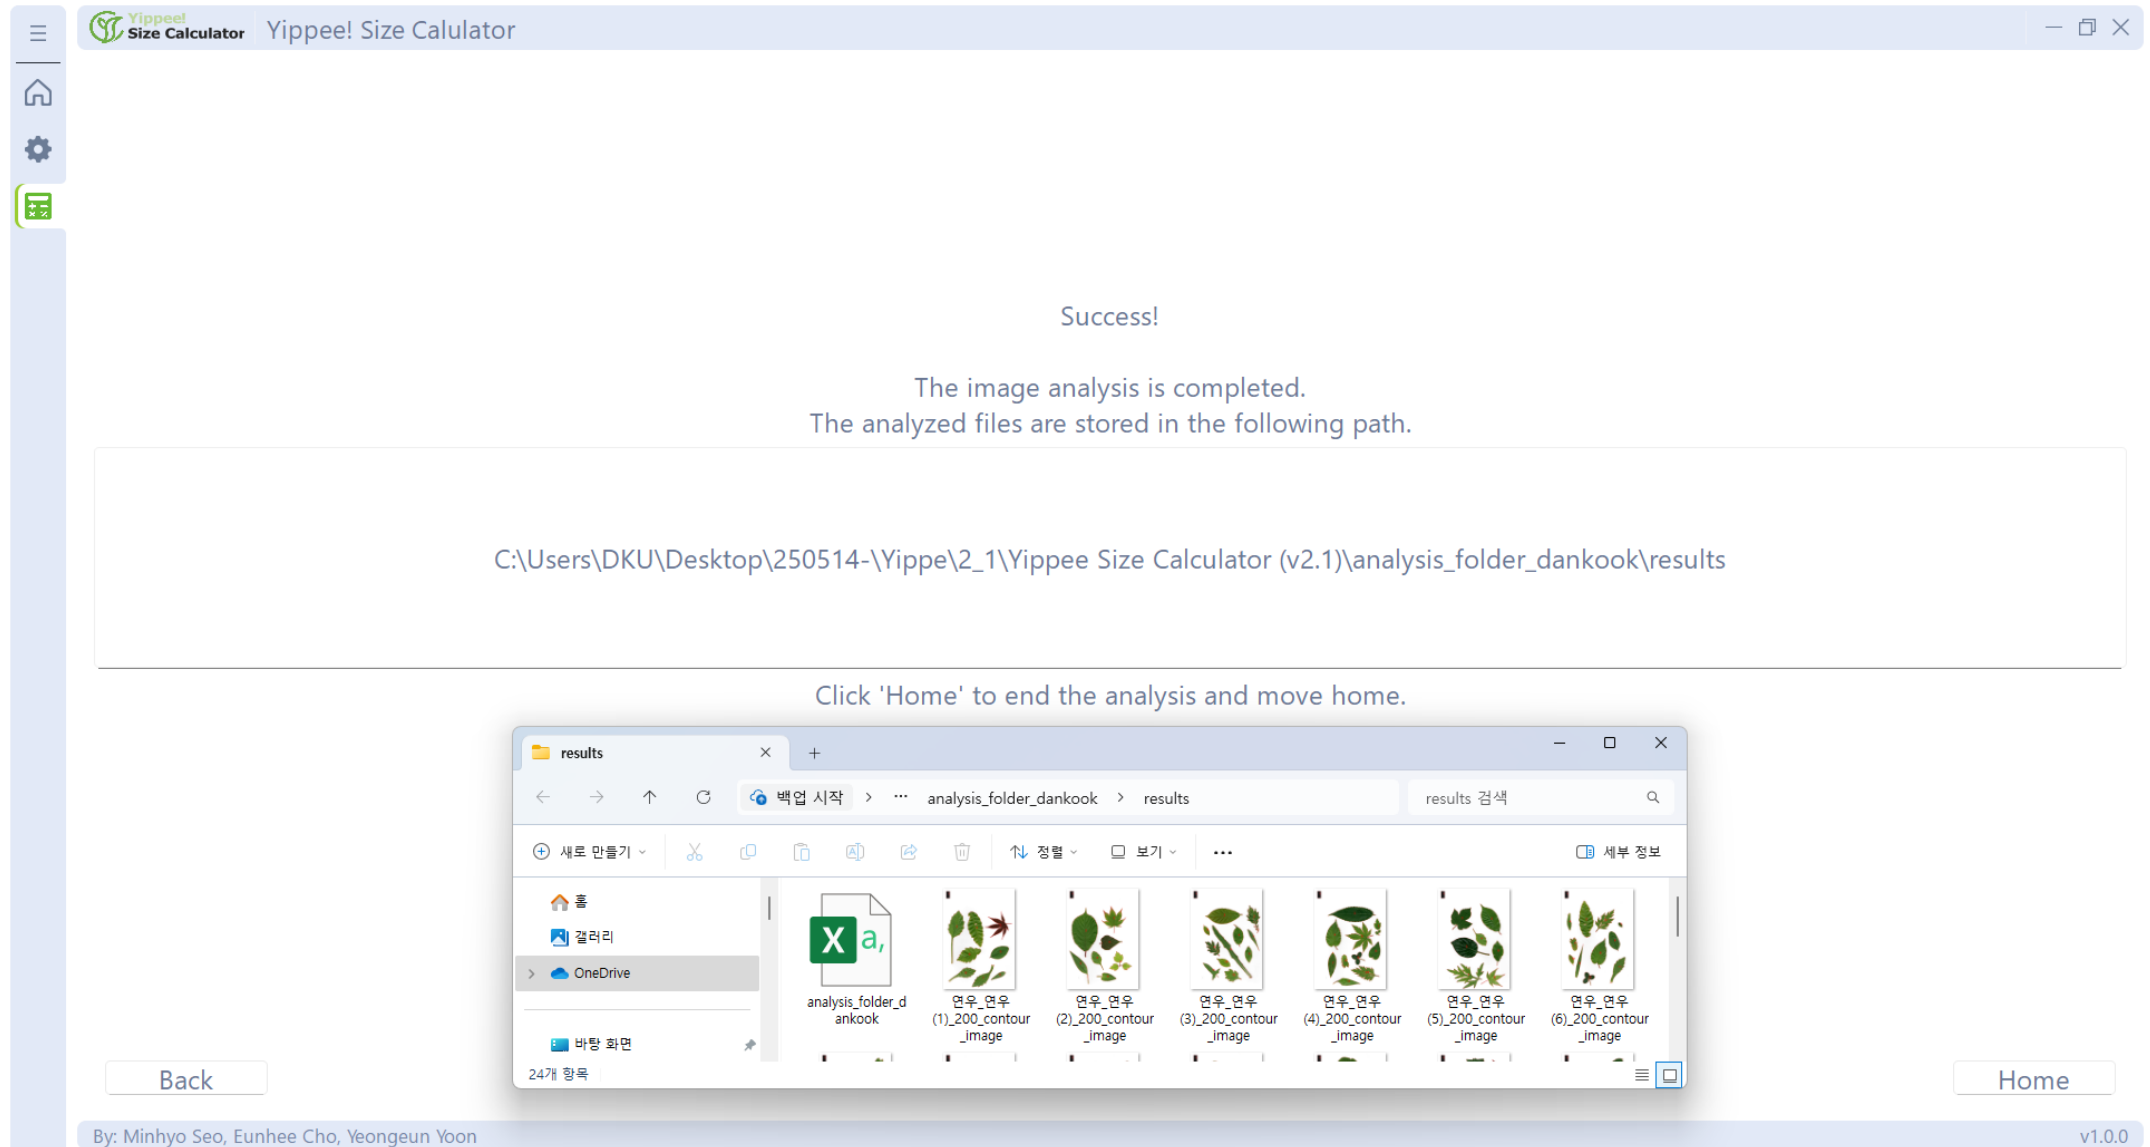

✓ Confirm the path and click **OK**.

✓ When analysis reaches 100%, a notification window appears. → Click **Next**.

7. Analysis Completed !!!!!!!

- ✓ The program displays the path where the analysis results were saved.
- ✓ It automatically opens that location in File Explorer so you can check the output images and Excel file.

★ Option for re-analyzing

The screenshot shows the Yippee! Size Calculator application window. The title bar reads "Yippee! Size Calculator". On the left, there is a vertical menu with three icons: a home icon, a gear icon, and a document icon. To the right of these icons, the following text is displayed in red:

- Home** : Goes back to Home and resets everything.
- Setting** : Returns to the first Setting screen and resets everything.
- Analysis** : Returns to the first screen of the Analysis step (Setting values are kept).

The main content area of the application displays the following text:

Success!

The image analysis is completed.
The analyzed files are stored in the following path.

C:\Users\DKU\Desktop\250514-\Yippe\2_1\Yippee Size Calculator (v2.1)\analysis_folder_dankook\results

Click 'Home' to end the analysis and move home.

At the bottom of the window, there are two buttons: "Back" on the left and "Home" on the right. The "Home" button is highlighted with a red rectangle. Below the buttons, the footer text reads "By: Minhyo Seo, Eunhee Cho, Yeongeun Yoon" on the left and "v1.0.0" on the right.

✓ If you want to analyze again, you can choose one option
